YMCA School Age Child Care Programs

Serving children before and after the traditional school day! Our School Age Child Care program serves children in grades K through 6 and is registered with the New York State Department of Social Services and is a provider for DSS funding for child care. Programs maintain a 1:10 staff to child ratio, and all staff are carefully screened and trained.

We offer two locations in the southeast part of the city - one at School #1 and the other on site at the Monroe Family YMCA.

The program meets the needs of children at varying stages of development by creating an environment that fosters independence, cooperation and self-control. The children are able to build confidence, trust and develop positive values by making friends and taking part in group projects and activities where fair play, team work and responsibility are emphasized.

The daily schedule is structured to allow a wide range of activity choices, balancing active and quiet times, and providing opportunities for children to pursue particular interests and develop individual abilities. Children are encouraged to participate in the daily operation of the program, especially in formulating behavioral expectations and choosing program themes and activities.

The YMCA of Greater Rochester incorporates the CATCH curriculum in all of its child care programs. CATCH (a Coordinated Approach to Child Health) teaches children about healthy lifestyles and encourages them to be physically active on a daily basis. Through games, activities and health messages, children are able to develop healthy habits and make educated decisions about their own health and well being. REGISTRATION FEE: \$25 per child / \$40 per family.
